

Terms of use of vouchers

Vouchers are a unique tool for increasing sales of goods or services, and, accordingly, a magical means of obtaining super profits and super incomes and for millions of consumers, significant money savings. In our case, it is also a powerful promotional tool. Marketplace MARKET-UP is a symbiosis of benefits for each member of the site. Firstly, from advertising their goods and services, and as a result - an increase in sales, and secondly - the purchase of vouchers from other users and accordingly, permanent discounts on consumable goods, as well as advertising and sales revenue vouchers of other program participants.

By joining the advertising and marketing program, you recommend to potential users the services that you yourself use with pleasure. On our website, everyone can create vouchers for their activities. After the participant has created his vouchers, everyone including his superiors, will be able to recommend the vouchers he created in their structures, while receiving unlimited income. This is the first time we have created such a service, where superiors advertise the activities of those whom they themselves have invited.
